

# New Hampshire Rapid Response

New Hampshire's Rapid Response crisis system officially launched on January 1st, 2022. The below data spans **January through December 2022**. This data is preliminary but being shared to illustrate that the system is up and running and available statewide and across the lifespan.

## WHAT IS IT?

The New Hampshire Rapid Response system is comprised of three components: Centralized Access Point, Mobile Crisis Response Teams, and location-based services. These services, in the most simple of terms, are meant to provide people in NH with:

**Someone  
to call, text or chat**

**Someone to  
respond**

**Somewhere  
to go**

## 22,200 CONTACTS

Jan-Dec 2022 the access point assisted individuals 22,200 times via phone, text, and/or chat.

## YOUTH & ADULTS

On average, **17%** of contacts with the access point were under 18 years old and **83%** were over 18

**MOBILE DISPATCHES**

On average, 31% of access point interactions state-wide resulted in mobile dispatches

## Youth & Adults

On average, **42%** of contacts resulted in mobile dispatches for youth and **18%** of contacts resulted in mobile dispatches for adults

NH Rapid Response created an opportunity to strengthen the community-based crisis response system designed to care for NH children, youth, adults, and families experiencing a mental health and or substance use crisis. Many dedicated professionals who work in NH's behavioral health system are dedicated to successfully implementing this new model. While Rapid Response is now live and partners have worked hard to get to this point, system improvement continues to ensure each communities' unique needs are being met. Please reach out; engage early and often.
